

# Beacon Product Verify User Guide

All **BEACON** Products have a unique “**QR Code**” into the product box for Authenticity.

Flow some step to Identify Beacon Original Products.

## Step-1:

Scan the QR code of your product by your smartphone with QR Code or Bar code Scanner. It will open the following link

“[https://beaconmedicare.com.bd/....](https://beaconmedicare.com.bd/)”

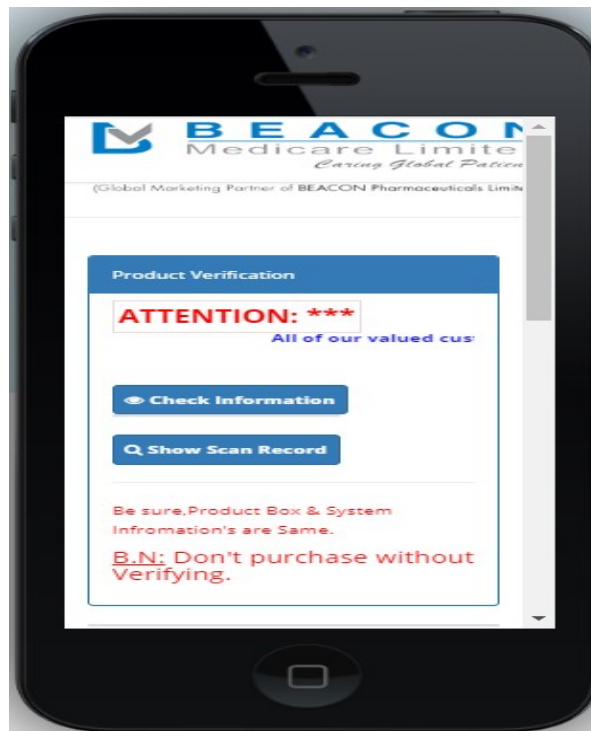

If you find any spelling mistake in the website URL, the product is **fake**.

## Step-2:

After scanning, you will see two button-

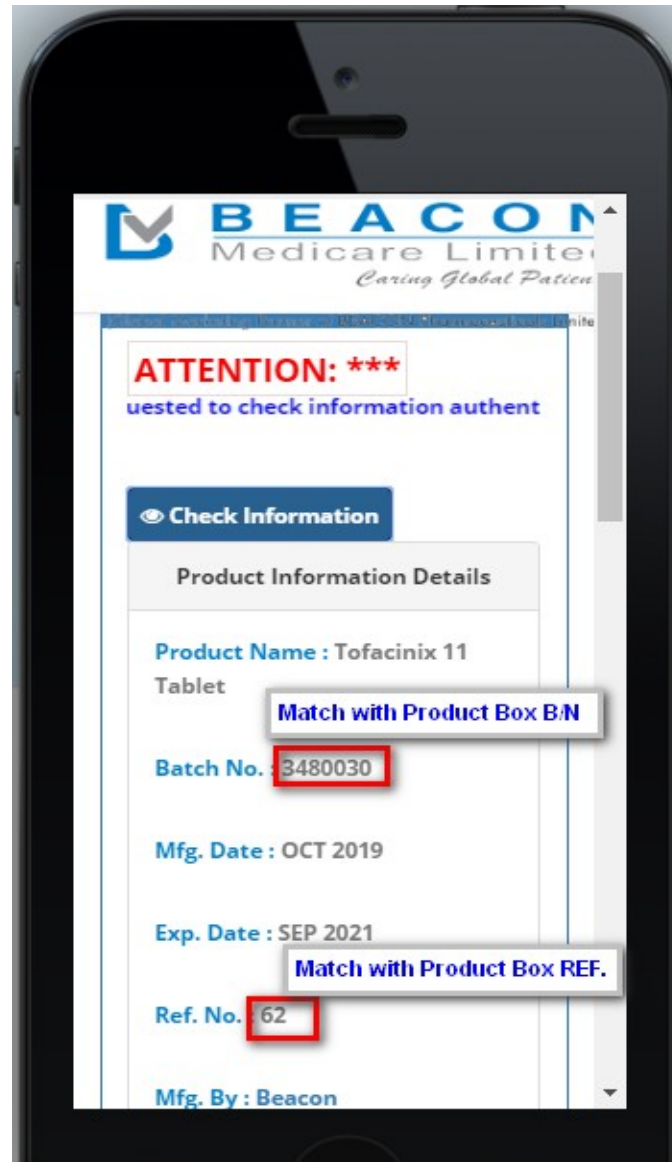

- **Check Information**
- **Show scan Record**

**\*\* Step-3:**

Now click to **“Check Information”** button to see all product information. Please check carefully - Product box information's & Scanning Information's will same.

If **does not match** any one information -Specially, **Batch No. & Box Ref.** be sure you are going to buy a **fake** product.

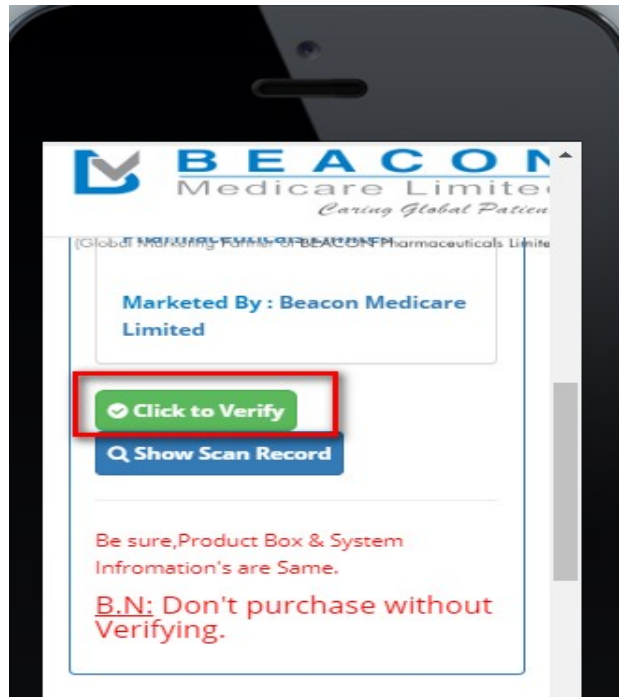

**Step-4:**

See Scan record history by **“Show scan record”** button. If you see multiple scan record from various country & Various date. please don't purchase this product. If you are the first scanner, you will see total scan record is 0 (Zero).

### Step-5:

After Purchasing, Please Verify the product by “**Click to Verify**” button.

After Using this product, Please Damage the product box & QR Code.

### Do Not Purchase:

1. If you see the message, be sure you are buying **Fake** product.

2. Do not purchase **verify** by others. If you see the warning, please return the product.
